

SACRED SCRIPTURE

Trascribed by, Eloy Jerome

INTRODUCTION

This Sacred Scripture was transcribed in order to share the original words which were inspired of old. The original autographs were “God-breathed” or “God-spoken”, being dictated from God to man. Many versions of the Bible are adulterated because the words from God were substituted with words from man, and thereby God’s words were diluted into books which have no Holy Spirit and no virtue. Some translations omit the miracles and signs done by the Spirit, some remove the Heavenly Trinity, and some denigrate the full deity of Christ. This Sacred Scripture is the literal translation of the Hebrew Aleppo Codex and the Greek Byzantium MSS into the English language. The source copy of the original Hebrew scriptures may be obtained from the first edition of the Aleppo Codex Bible, published in 2001 A.D., entitled “Keter Yerushalayim” (ie: “The Jerusalem Crown”), and the source copy of the original Greek scriptures is from the Byzantium MSS, in “The English Hexapla”, published in 1841 A.D.

Unlike the English language, the direction of the Hebrew language is written and read from right-to-left, rather than from left-to-right, therefore the first page of the Hebrew Bible is located where the last page of the English Bible would normally be found. In the English transliteration of the Hebrew, I have hyphenated the Hebrew prepositional, pronominal and conjunctive prefixes, and also the Hebrew pronominal and postpositional suffixes of the words, in order to show the correct English rendering beneath of the Hebrew transliteration. The words spoken by God I have highlighted in red for emphasis.

History

The Old Covenant scriptures originally began to be scripted from 3507 B.C., and were completed in 458 B.C.. And the New Covenant scriptures were originally scripted from 5 B.C., and completed in 30 A.D.
